The Department of Civil and Urban Engineering (CUE) at the NYU Tandon School of Engineering invites applications for an open rank, tenured/tenure track position, to start in Fall 2019. New York University (NYU) is one of the top private universities in the United States. We have an illustrious past as Brooklyn Poly and NYU Polytechnic School of Engineering.

CUE is looking to hire in all areas of Environmental Engineering, with particular emphasis on environmental analytical chemistry, innovative water and wastewater treatment processes, resource recovery from wastewater or other waste streams, fate of chemical contaminants in natural and engineered systems, water reuse, or related fields. You should have a Ph.D. degree in Environmental Engineering, or a closely related discipline. We seek individuals who have, or have the potential to develop, a strong record of scholarship, leadership, and curricular innovation, and an excellent funding record. You should also demonstrate excellence in teaching and mentoring.

NYU Tandon’s mission is to excel in research, teaching, and entrepreneurship. We aim to inspire and educate engineers for the 21st century. We are committed to quality, integrity, and respect for each other. We take pride in our high numbers of women students and students who are the first in their family to go to college. We seek faculty who have a real passion for being part of a dynamic culturally diverse environment. Tandon belongs to the Higher Education Recruitment Consortium (HERC), which assists with dual-career searches.

We foster innovation and entrepreneurship that makes a difference in the world:
• Our faculty and students are part of the high-tech start-up culture in New York City and in downtown Brooklyn.
• We support four business incubators that connect our students and faculty to today’s innovation economy.
• We collaborate closely with researchers at other universities throughout NYC.
• We maintain strong partnerships with regional city and state governments and with industry and corporate communities.

With NYU’s unrivaled global network of campuses, we promote a truly global engineering education. We are deeply committed to teaching and learning. We lead and have ties to multidisciplinary centers in smart mobility, urban informatics, construction engineering and management, wireless technology, cybersecurity, data sciences, technology and governance, and the social implications of artificial intelligence, among others.

You should submit:
• Cover letter
• Current CV
• Statements of research and teaching interests
• Recent teaching evaluations (if available)
• Names and contact information for four references.

We will review applications beginning on December 1, 2018, and will continue until we fill the position. We encourage you to submit early.

New York University (NYU) is an Equal Opportunity Employer. NYU is committed to a policy of equal treatment and opportunity in every aspect of its hiring and promotion process without regard to race, color, creed, religion, sex, pregnancy or childbirth (or related medical condition), sexual orientation, partnership status, gender and/or gender identity or expression, marital, parental or familial status, caregiver status, national origin, ethnicity, alienage or citizenship status, veteran or military status, age, disability, predisposing genetic characteristics, domestic violence victim status, unemployment status, or any other legally protected basis. Women, racial and ethnic minorities, persons of minority sexual orientation or gender identity, individuals with disabilities, and veterans are encouraged to apply for vacant positions at all levels.
